Press Release

RMB showcasing the Apprehender Cuffing Control Device (CB-01) in The Mock Prison Riot the grounds of the decommissioned West Virginia Penitentiary a program of the National Institute of Justice (NIJ), Office of Justice Programs, United States Department of Justice (DOJ)

PRESS RELEASE: 05/20/2009

Anaheim, CA- May 20, 2009 RMB showcased The Apprehender at this year's Mock Prison Riot. The Mock Prison Riot is the only venue of its kind where law enforcement and corrections practitioners can touch, see, and actually deploy technologies from the showcase under real-world conditions, utilizing the grounds of the decommissioned West Virginia Penitentiary to maximum advantage. All Mock Prison Riot services are offered free of charge to attendees. RMB was invited to showcase the Apprehender by the United States Department of Justice Office of Justice Program, NIJ and RLET, and next to TASER, it was the hottest item to be tested.

Srg. Michael Leardi, of the Passaic County Sheriff's Department, used The Apprehender to immobilize inmates during a cell-block disturbance scenario. Leardi explained: "There was one role-playing inmate whose been doing this for a long time who, as we were pulling him up, was like 'Oh my God, I've never felt anything like that'." The Apprehender, he said, "really did the trick for us."

RMB is now working side-by-side with Passaic County NJ, Essex County NY, Chatham County GA, Effingham County SC. to deploy the Apprehender in their prisons.

RMB Industries, Inc. manufactures of the Apprehender™ Cuffing Apprehension Control Device (CB-01) which combines the power and strength of a baton with the restraint and control of a handcuff, in an ergonomic design that allows even the smallest police officer to control the largest suspect safely and easily. The secret is in the special design of the CB-01 that uses patented cuffing technology with the power of leverage to increase the strength, reach and effectiveness of any police officer who uses it.
