Press Release

“Baton uses handcuff tech to detain violent suspects” RMB and Chief Richard Bull a Northern California Police Department adopt the Apprehender (CB-01)

PRESS RELEASE: 09/04/2009

Anaheim, CA- September 04, 2009 RMB announces Ripon County in California adopts the Apprehender (CB-01) In Front Page Article written by Glenn Kahl of the Manteca Bulletin **“Baton uses handcuff tech to detain violent suspects”** That’s the latest advance in crime fighting technology to be tested by the Ripon Police Department’s officers. Rich Barwick, founder/inventor of RMB Industries, Inc. led an in-service for Ripon officers Monday in just how to use the “Apprehender” police baton against resisting and violent suspects. Placing the baton on an ankle and standing on its handle also made the suspect immobile – unable to fight with officers. Barwick brought enough of the batons to give to each member of the department to add to their self defense arsenal. He demonstrated how fast an officer can place the “Club” like tool’s yoke around a wrist and click a secreted handcuff into action. Then the length of the baton allows leverage to put a large man immediately to the ground and defenseless.

The baton can also be used on a car’s steering wheel to keep it from driving away from the scene of a crime.

Lt. Ed Ormonde said that initially 10 officers are going to be testing the baton in the field and bringing back their evaluations. He said the department is going to be adding the baton to his policy manual in the near future.

RMB Industries, Inc. manufactures of the Apprehender™ Cuffing Apprehension Control Device (CB-01) which combines the power and strength of a baton with the restraint and control of a handcuff, in an ergonomic design that allows even the smallest police officer to control the largest suspect safely and easily. The secret is in the special design of the CB-01 that uses patented cuffing technology with the power of leverage to increase the strength, reach and effectiveness of any police officer who uses it. For more information please visit www.apprehender.net or call 888.459.1615.
